Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

- Species I - Figures 2A and 2B
- Species II - Figure 4.

During a telephone conversation with John W. Wustenburg on 16 June 2005 a provisional election was made without traverse to prosecute the invention of Species I, claims 1-38. Affirmation of this election must be made by applicant in replying to this Office action. No claims are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 31-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Dech U.S. 4,714,117.

Regarding claims 31, 34, 35 and 37, Dech discloses positioning a production liner (90) within the well (3); securing the downhole tool in the well by one or more inflatable packers (91-98); performing a production enhancement operation (packer setting) through a body (100) of the downhole tool in one trip; and producing a fluid from a formation through a plurality of production openings (111) formed in the body.

As to claim 32 and 38, Dech discloses setting a liner hanger (liner 100 being secured to casing 30).

As to claims 33 and 36, Dech discloses inflating the packer (91-98) with a fluid (110) inherently capable of fracturing.

Allowable Subject Matter

Claims 1-30 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose or suggest all the claimed subject matter including a body having a plurality of production openings, at least one frac opening; a packer disposed about the body, a frac mandrel operable to set the packer.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Thiercelin, U.S. 5,295,393 discloses a similar apparatus.
